2020 Cacao and Chocolate Virtual Showroom

BACKGROUND

The effects of the Covid-19 pandemic in Perú and worldwide have stagnated businesses and generated great financial losses. Many cacao and chocolate growers, as well as service providers and suppliers to the chocolate industry have experienced the negative consequences.

The government-implemented policies to control and avoid the propagation of Covid-19 have caused the reinventing of this event. The organizers of this year's event have modified their approach by using today's powerful hi-tech tools.

Consequently, here we present this innovative hi-tech platform, the 2020 CACAO AND CHOCOLATE VIRTUAL SHOWROOM.

2020 Cacao and Chocolate Virtual Showroom

Objectives:

Reactivate and streamline the economy in the cacao and chocolate markets.

Give exhibiting vendors the opportunity to use the virtual showroom as a lower-cost option to the actual physical one, considering the hard financial condition most vendors are facing nowadays.

To be one of the pioneer events projecting innovative power in this industry.

Facilitate the networking with world-wide businesses.

Increase availability and visibility due to a 24/7 presence and contact possibility. Date and time limits have vanished.

Allow monitoring of all activities, site-visits, most relevant information, most searched products, while collecting data useful for the development and enhancement of our events.

Increase the number of visitors and contacts.

Promote consumer education, providing information on the health benefits of cacao to a wider audience, improving local sales of Peruvian chocolate.

What is Virtual SCCH?

The 2020 Cacao and Chocolate Virtual Showroom (Salon del Cacao y Chocolate SCCH, in Spanish) is a new bilingual online platform. It is designed to exhibit products and services from the cacao and chocolate sector. The platform offers exhibiting vendors, visitors and buyers a site where they can interact simultaneously from anywhere in the world.

It is accessible via internet from any mobile device and easy to operate. With this platform, our exhibiting vendors will have access to better business and sales opportunities. Contacting prospective clients and companies becomes an easy task, in a fast and simple way.

2020 Cacao and Chocolate Virtual Showroom

What will be in the Virtual SCCH?

Designed to our own requirements, it will have:

- ✓ **Pavillions:** with sections for cacao growers, chocolate growers, suppliers, trade organizations.
- ✓ **Virtual Stands:** With all the business information, product catalogs, with direct-sales possibilities.
- ✓ **Auditoriums:** Virtual rooms, dedicated to the Cacao and Chocolate Latinamerican Forum, as well as choco-demos, workshops, tasting, conferences, chocolate making, etc.
- ✓ **Networking Rooms:** To facilitate interaction among visitors and exhibiting vendors.
- ✓ Information Center for visitors in need of additional information. And other features to allow them communicate timely in a streamlined and direct way.
